

Our life at home is to be an extension of our life in the Church. This *sacramental life* that we live in the Church, with Jesus as the center of all we say and do, is to be present and lived out in our home as well. Look at the pictures on the left of the paper that are from our faith. Draw a line to a picture on the right, from life at home, that best matches the action from the faith. Talk with your family about how the pictures are similar and how they are different. Can your family make your home life look more like what you see and do at Church?
